The Honorable Sherrod Brown Chairman, Committee on Banking United States Senate Washington, D.C. 20510 The Honorable Tim Scott Ranking Member, Committee on Banking United States Senate Washington, D.C. 20510

Dear Chairman Brown and Ranking Member Scott:

The undersigned organizations, representing millions of small businesses, strongly support amending the FY2025 National Defense Authorization Act to delay by one year the Corporate Transparency Act's (CTA) filing deadline.

Amendments sponsored by Senators Tim Scott (#2169) and James Lankford (#2831) would provide the business community and federal regulators additional time to educate millions of small business owners regarding the CTA's new reporting requirements and the onerous penalties resulting if they fail to comply. They would also allow time for the on-going legal challenge to work its way through the courts while restoring Congress's original intent to give covered entities a full two years to comply with the statute's reporting requirements.

Although filing under the CTA began at the start of this year, only a few million businesses have registered while an estimated 28 million covered small businesses have yet to file. This compliance rate of less than 10 percent is a direct result of the general lack of awareness among business owners regarding the new rules. While the business community and FinCEN have gone to great lengths to educate small business owners, it is clear additional time is needed. Absent a delay, millions of law-abiding citizens will be at risk of steep fines and criminal penalties come the end of this year.

Recent court decisions have added to the confusion. In March, the United States District Court for the Northern District of Alabama found the CTA exceeded the Constitution's enumerated powers and is therefore unconstitutional. That case was appealed and will be heard by an appellate court later this year. In the meantime, however, FinCEN continues to enforce the CTA against all small businesses and other entities not named in the lawsuit. This decision effectively creates two classes of small businesses – those NSBA members who are exempt and everybody else who must still comply.

Finally, in enacting the CTA lawmakers explicitly called for a reporting deadline of "not later than 2 years after the effective date of the regulations" for existing entities. This timeframe was designed to give affected entities sufficient time to learn of, understand and comply with the new reporting regime, while minimizing the burdens on reporting companies.

In its rulemaking, however, FinCEN shortened this deadline and gave existing entities just one year to comply. That decision is problematic both in its disregard of congressional intent and its practical implications for compliance rates. The CTA covers tens of millions of legal entities plus all those millions of individuals considered to be "beneficial owners," yet the vast majority of the law's targets remain wholly unfamiliar with their new compliance obligations. They simply need time to learn about the new law.

The one-year delay proposed by Senators Scott and Lankford in their respective amendments would address these challenges and they are consistent with legislation (H.R. 5119) which passed the House on a bipartisan 420-1 vote just last year.

The undersigned organizations therefore strongly urge you to support inclusion of these amendments as part of the FY2025 National Defense Authorization Act.

Sincerely,
